

With the HD 100, the included 6-month service plan<sup>\*</sup>, and your IntelliRoute® TND™ 720, you can:

- Track and view On Duty, Driving, Off Duty, and Sleeper Berth duty status time
- Accurately track Driving & On Duty time by letting system automatically switch between statuses
- Complete Vehicle Inspection Reports & Trip Sheets electronically
- Receive notifications of potential HOS violations with on-screen and audio alerts
- Send logs directly by fax number or email address during an inspection
- Access the Rand McNally Connect web portal to view log history for the past six months

## HD100

The HD 100 E-Log device requires a service plan to operate. Rand McNally is offering six complimentary months of service.

After six months of included service, you will need to link your HD 100 to the Rand McNally Dock™ by connecting the device to a computer with an internet connection via the USB cable provided, and purchase a six-month or a one-year pre-paid plan.

Visit [randmcnally.com/hd100](http://randmcnally.com/hd100) for more information.

Hours of Service Log Graph

<sup>\*</sup>Six months of complimentary service is included. The HD 100 E-Log device requires pairing with the TND™ 720 and a service plan to function.

Rand McNally follows a continuous improvement process and reserves the right to provide enhancements that may not be reflected in the pictures and specifications on this brochure. The HD 100 E-Log software is compliant with 49CFR parts 395.15, 396.11 and 396.13. The HD 100 E-Log device is designed to work with Rand McNally's IntelliRoute® TND™ 720 LM device. Future software downloads may enable use with other devices. During the registration and activation process, the IntelliRoute® TND™ 720 LM software will be updated. The original IntelliRoute® TND™ 720 LM software may be restored through a Rand McNally update. The Rand McNally Dock is free software available to IntelliRoute® TND™ owners for use to: register, back up and update their devices; send information to Rand McNally; and to secure additional services. Owners may access the Dock by connecting their device to a computer with an internet connection, via the USB cable provided in the Rand McNally packaging. The HD 100 E-Log device requires a service plan to function. ©2013 Rand McNally. All rights reserved. ### ELECTRONIC LOGGING DEVICE

Maximize your day with E-Logs

Add compliant HOS logs to your IntelliRoute® TND™ 720

<sup>\*</sup>Six months of complimentary service is included. The HD 100 E-Log device requires pairing with the TND™ 720 and a service plan to function.

<sup>\*</sup>After 6 months, renewal of service plan is required. Visit the Rand McNally Dock™ for more information and to review service plan upgrade options.

## ELECTRONIC LOGGING DEVICE

The HD 100 works with the TND™ 720 to become a compliant E-Log system\*

### Quick

- ✓ Installs in 10 minutes or less
- ✓ Changes in future HOS rules managed via the Rand McNally Dock™, enabling quick updates.

### Compact

- ✓ Device is just 4 1/2" x 3 3/4"

### Compliant

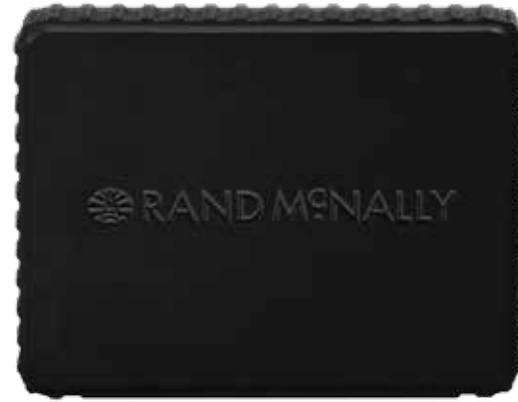

- ✓ Compliant with current FMCSA Hours of Service rules and Vehicle Inspection Reporting
- ✓ As regulations change, Rand McNally provides software updates through the Dock™.

### Affordable

- ✓ \$299.99 with 6 months of service; \$1,100 less expensive than fleet E-Log systems.<sup>1</sup>

### And, saves time and money

- ✓ Drivers can save, on average, 20 minutes/day eliminating paper logs<sup>2</sup>; a federal study estimates that the use of electronic logs can save a driver up to \$688 annually.<sup>3</sup>
- ✓ The HD 100 E-Log device reflects the more complex HOS rules that went into effect in July 2013.

**HD 100**

\*IntelliRoute® TND™ 720 Not Included

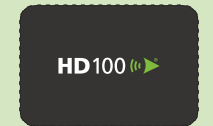

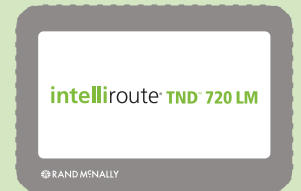

## Save time and money by simplifying compliance & day-to-day duties!

- **Gain back the 20 minutes a day** spent filling out paper log books (on average), with automated logging.
- **Help eliminate HOS violations** with more precise automatic logging. Plus, get alerts when you start to run out of hours.
- **Spend more time driving.** The E-Log device calculates complexities like the new 34-hour reset, required rest breaks, and the 60/70 hour rule.
- **Spend less time at roadside inspections** with an E-Log device that lets inspectors quickly scan through logs.

### How the HD 100 works\*\*:

The HD 100 plugs into the truck's diagnostics port and connects Hours of Service information wirelessly to the TND™ 720. HOS logs are available on the TND™ 720 and via the Rand McNally Connect web portal.

\*TND™ 720 is not included with the HD 100 E-Log device.  
 Future software downloads may enable use with other devices.  
<sup>1</sup> Federal Motor Carrier Safety Administration statistics on mobile communication systems.  
<sup>2</sup> Proprietary fleet feedback using a Rand McNally E-Log solution.  
<sup>3</sup> Federal Motor Carrier Safety Administration, U.S. DOT study, Jan. 2011.

\*\*Requires TND™ 720 device and a service plan to operate; IntelliRoute® TND™ 720 not included; six months of service included. Future software downloads may enable use with other devices.
